Description

Zay Zay is possibly unique, being in the same ownership since new in 1980 and largely unchanged from the day she was delivered. Maintained by Jeremy Rogers Yachts, she still retains the original Lister Petter engine, recently serviced and in lovely condition having been completely re-built on 2 occasions. Important updates have been made to electronics systems and stainless steel standing rigging renewed this year. She has a history of cruising and racing with many RORC races including 2 Fastnet races but not much used in recent years. Zay Zay has been laid up ashore each winter for several months. She represents an opportunity to own some maritime history in a condition rarely found in the class.
